1.0 lot Supply & Installation of Tunnel Ventilation System for 300 sq.m Piggery TERMS & CONDITIONS 1.) Supply & Installation of Tunnel Ventilation System for 300 sq.m Piggery and shall commence only upon receipt of Notice to Proceed: 2.) Scope of work to be undertaken shall conform with the Plans and Specification; and the provided by the supplier, to wit; a) Exhaust System — 4 units Specification; brain dependentation shall be provided by the supplier, to wit; b) Pad cooling System — 2 units 2 mx 4.5 mx x 15cm cooling pads in rectangular galvanized steel frame, 0.5 HP single phase devastering submersible pump with 2m x 1.5m concrete tank. c) Mist Cooling System — 1 HP single phase motor, 45 pcs. Supri fine mister, uniform and dripf-free Solution, suitable for pulse activation with anti-drain valve. d) Side Wall Art Intel Cover – 2 sets White Tarpaulin Carvas 2m x 30m Series 200 in Double shaft 24M Motor trated for 120-foot bottom roiling Vent. e) Automated control switch-15 Flexible Outputs-configured according to the field application; 6 Digital Inputs for water meter, fertilizer meter or pressure switch; 5 Analog Inputs for EC, PH, temperature and relative humidity, 1) Advanced climate sensor-Modular features, control diverse modules	1.0 lot Supply & Installation of Tunnel Ventilation System for 300 sq.m Piggery TERMS & CONDITIONS 1.) Supply & Installation of Tunnel Ventilation System for 300 sq.m. Piggery and shall commence only upon receipt of Notice to Proceed. 2.) Scope of work to be undertaken shall conform with the Plans and Specification; 3, All equipment needed in the implementation shall be provided by the supplier, to wit: a) Exhaust System — 4 units 50° fan, energy efficient single phase 220V, 1.5 - 2.0 HP Motor b) Pad cooling System — 2 units 12 mx x 4.5 m x 15m cooling pads in rectangular galvanized steel frame, 0.5 HP single phase dewatering submersible pump with 2m x 1.5m concrete tank. c) Mist Cooling System — 1HP single phase motor, 45 pcs. Super fine mister, uniform and drip-free solution, suitable for pulse activation with anti-drain valve. d) Side Wall Air Intel Cover — 2 sets White Tarpaulin Carvas 2m x 30m Series 200 in Double shaft 244 Motor trated for 120-foot bottom rolling Vont. e) Automated control switch -15 Flexible Outputs-configured according to the field application, 6 Digital Inputs for water meter, fertilizer meter or pressure switch; 5 Analog Inputs for Cc, pt, temperature and relative humidity, 15 Advanced climate sansor-Modular features, control diverse modules		QTY. 			and components (Air Vents, Fan and Pad, Misting, Air circulation and Lighting) g) Automatic Voltage Regulator (AVR)-25 KVA Servo Motor type, 220V output 4.) The supplier shall provide a minimum warranty of three (3) years against defective parts and equipment, excluding consumable parts; 5.) The supplier shall offer free technical support services and must respond within 24 hours from the time of call in cases of system failure; 6.) The supplier must provide after-sales support services, including a list of available technical personnel or service crew capable of performing immediate repair and maintenance services. An office or branch within Region XI must be available to ensure prompt response; 7.) The supplier shall conduct the commissioning and testing of the entire system to ensure proper functionality and compliance with specifications; 8.) The supplier shall provide free training to the designated end-users on operation, maintenance, and troubleshooting of the system; 9.) The supplier shall assume full responsibility and accountability for the safety and execution of all site operations, including the installation methodology; 10.) The Government shall not be held liable for any loss of or damage to the contractor's equipment, temporary works, or materials
